The introduction may consist of 3 - 6 sentences.	<p>"Don't tell me how educated you are; tell me how much you have traveled." This well-known saying, which I'm sure you've come across, captures the spirit of exploration. People choose various ways of traveling, which can be categorized as structured tourism or personal travel that's driven by curiosity. Each of these approaches to travel supports economic growth and cultural exchange, highlighting the importance of understanding and valuing the diverse nature of people's journeys.</p>	travel on business travel for pleasure travel by car travel by train travel by plane while which can be categorized
Step 2. Tourism and Travelling 2.1. Speak about the difference between tourism and travel, the reasons for travelling. How important are the different reasons, do you think? 2.2. Speak about travel tips for someone visiting or coming to live/work in your country. What are the most important ones?	<p>Tourism often means structured and commercialized travel, whereas personal travel is more individualistic and driven by curiosity. Unlike tourists, travelers don't always stay in resorts, and their journeys tend to be longer and more challenging. People go on a travel for many reasons, such as gaining independence, becoming more self-confident, earning money, learning, or finding oneself. Each of these motivations is essential, as they contribute to economic development and foster cultural exchange, helping us appreciate the diversity of people's journeys.</p> <p>If you're planning to visit a new country, there are some important travel tips to keep in mind. Firstly, you should read about local laws and customs. Secondly, make copies of important documents, such as your tickets, passport, and insurance policy. For example, it's helpful to research local traditions, culture, and dress codes. Finally, ensure that you obtain comprehensive travel insurance, familiarize yourself with the currency, and consider staying in locally-owned accommodations. <p>Step 3. Explorers</p> <p>3.1. How is a traveller different from an explorer?</p> <p>3.2. Speak about a famous explorer, his/her greatest achievement.</p>	<p>A traveler is typically someone who embarks on journeys for relaxation, recreation, or cultural experiences, often following a planned itinerary and visiting popular spots. On the other hand, an explorer is a person who is driven by a curiosity to discover new places and who often goes off the beaten track, immersing themselves in unfamiliar environments. While travelers might value convenience and comfort, explorers seek to avoid tourist traps and prioritize authentic experiences. Whereas travelers may enjoy well-developed tourist amenities, explorers often prefer the thrill of venturing into the unknown. One famous explorer who is known for a remarkable discovery is Christopher Columbus. In 1492, Columbus set out on a journey from Spain, hoping to find a new route to Asia, but he ended up discovering the Caribbean islands and the Americas instead. This unexpected encounter opened new trade routes and changed the global map, marking a significant turning point in history and transforming the connection between Europe and the Americas forever.</p>	<p>to discover new places goes off the beaten track avoid tourist traps is known for set out on a journey On the other hand While Whereas who is known fo</p>

Through books, documentaries, and virtual tours, armchair travelers gain insights into diverse places, traditions, and landscapes. Armchair traveling offers an escape from daily life, bringing people to distant places and inspiring their imaginations. This approach can provide inspiration for future trips and serve as a form of relaxation and entertainment.
